BIOMETRIKA

VOLUME 66

1979

Editor
D. R. COX

Business Manager
R. F. GALBRAITH

Associate Editors
P. M. E. Altham
A. C. Atkinson
R. M. Cormack
M. J. R. Healy
D. V. Hinkley
J. F. C. Kingman
S. D. Silvey
D. M. Titterington

PUBLISHED BY

BIOMETRIKA TRUST, UNIVERSITY COLLEGE LONDON

© 1979 Biometrika Trust ISSN 0006–3444

Printed in Great Britain by John Wright & Sons Ltd, The Stonebridge Press, Bristol BS4 5NU

Contents of Volume 66

PAGE

ABRAHAM, B. and BOX, G. E. P. Bayesian analysis of some outlier problems in time series 229

AITCHISON, J. A calibration problem in statistical diagnosis: The clinical amalgamation problem 357

AITCHISON, J. and LAUDER, I. J. Statistical diagnosis from imprecise data . . 475

AKAIKE, H. A Bayesian extension of the minimum AIC procedure of autoregressive model fitting 237

ALAM, K. (*See* RAMEY, J. T.)

ALI, M. M. Analysis of stationary spatial-temporal processes: Estimation and prediction 513

ANDERSON, J. A. Multivariate logistic compounds 17

ANSLEY, C. F. An algorithm for the exact likelihood of a mixed autoregressive-moving average process 59

ANSLEY, C. F. and NEWBOLD, P. On the finite sample distribution of residual autocorrelations in autoregressive-moving average models 547

ATKINSON, A. C. A family of switching algorithms for the computer generation of beta random variables 141

BAILLIE, R. T. Asymptotic prediction mean squared error for vector autoregressive models 675

BECKER, N. An estimation procedure for household disease data 271

BEGG, C. B. and MEHTA, C. R. Sequential analysis of comparative clinical trials . 97

BHOJ, D. S. Testing equality of variances of correlated variates with incomplete data on both responses 681

BOWMAN, K. O. and SHENTON, L. R. Approximate percentage points for Pearson distributions 147

BOWMAN, K. O. (*See* SHENTON, L. R.)

BOX, G. E. P. (*See* ABRAHAM, B.)

BOX, G. E. P. (*See* LJUNG, G. M.)

BRETH, M. Nonparametric Bayesian interval estimation 641

BUCKLEY, J. and JAMES, I. Linear regression with censored data 429

BYAR, D. P. (*See* LININGER, L.)

CAMERON, M. A. and HANNAN, E. J. Transient signals 243

CLIFFORD, P. and SUDBURY, A. W. On the use of bounds in the statistical analysis of spatial processes 495

COOKE, P. Statistical inference for bounds of random variables 367

COTTER, S. C. A screening design for factorial experiments with interactions . . 317

COX, D. R. A note on the graphical analysis of survival data 188

COX, D. R. and SNELL, E. J. On sampling and the estimation of rare errors . . 125

CRESSIE, N. An optimal statistic based on higher order gaps 619

DAVIES, N. and NEWBOLD, P. Some power studies of a portmanteau test of time series model specification 153

DAVIS, A. W. On the differential equation for Meijer's $G^{p,0}_{p,p}$ function, and further tables of Wilks's likelihood ratio criterion 519

DAVIS, H. T. and FELDSTEIN, M. L. The generalized Pareto law as a model for progressively censored survival data 299

DEY, A. (*See* SINGH, M.)
FAREWELL, V. T. Some results on the estimation of logistic models based on retrospective data 27
FEDERER, W. T. (*See* SHAFIQ, M.)
FEIGIN, P. D. and REISER, B. On asymptotic ancillarity and inference for Yule and regular nonergodic processes 279
FELDSTEIN, M. L. (*See* DAVIS, H. T.)
FEUERVERGER, A. On some methods of analysis for weather experiments . . 655
FINCH, P. D. Description and analogy in the practice of statistics (with comments by M. J. R. Healy and O. Kempthorne) 195
FUJIKOSHI, Y. and VEITCH, L. G. Estimation of dimensionality in canonical correlation analysis 345
FUJINO, Y. Tests for the homogeneity of a set of variances against ordered alternatives 133
GAIL, M. H. (*See* LININGER, L.)
GART, J. J. (*See* LI, S.-H.)
GASKINS, R. A. (*See* GOOD, I. J.)
GILL, C. A. and JOANES, D. N. Bayesian estimation of Shannon's index of diversity 81
GILULA, Z. Singular value decomposition of probability matrices: Probabilistic aspects of latent dichotomous variables 339
GITTINS, J. C. and JONES, D. M. A dynamic allocation index for the discounted multiarmed bandit problem 561
GODFREY, L. G. Testing the adequacy of a time series model 67
GOOD, I. J. Studies in the History of Probability and Statistics. XXXVII. A. M. Turing's statistical work in World War II 393
GOOD, I. J., LEWIS, B. C., GASKINS, R. A. and HOWELL, L. W. Population estimation by the removal method assuming proportional trapping 485
GOODMAN, L. A. Multiplicative models for square contingency tables with ordered categories 413
GORDON, A. D. A measure of the agreement between rankings 7
GORDON, A. D. Another measure of the agreement between rankings 327
GRATTON, R. J. Generalizing the test graph method for estimating functions of an unknown density 663
GREEN, J. R. Modified Wilcoxon test for two different distributions 645
GREEN, S. B. (*See* LININGER, L.)
HALL, A. D. (*See* NICHOLLS, D. F.)
HANNAN, E. J. A note on autoregressive-moving average identification . . . 672
HANNAN, E. J. (*See* CAMERON, M. A.)
HARRELL, F. E. and SEN, P. K. Statistical inference for censored bivariate normal distributions based on induced order statistics 293
